Summary

Building energy codes specialist and full-stack developer with 12 years of experience as a Title 24 Part 6 subject matter expert. I build tools, training, and resources for Title 24 stakeholders, and I support development of energy codes and standards such as Title 24 Part 6 and the Washington State Energy Code (WSEC). I lead an interdisciplinary team to build Virtual Compliance Assistant, a Title 24 Part 6 form completion tool, and I maintain a data pipeline and associated schemas used to inform future policy decisions for building energy codes. I am the founder of [Wattly](#), Title 24 BEM and Energy Code compliance software covering performance and prescriptive compliance, currently awaiting CEC certification for the 2025 Energy Code.

Experience

NORESCO

2019 to present

Senior Energy Analyst, 2024 to present. Energy Analyst III, 2021 to 2024. Energy Analyst II, 2019 to 2021.

- Lead an interdisciplinary team of software developers and subject matter experts to build Virtual Compliance Assistant, a Title 24 Part 6 form completion tool used to demonstrate California Title 24 Part 6 prescriptive compliance. It digitized a process that used to be hand-filled paper forms and fragmented tools.
- Built and maintain a data pipeline and associated schemas used to inform future policy decisions for building energy codes.
- Develop and maintain the XSD ruleset used as shared infrastructure for public and private compliance tools in the state.
- Deliver a secure API for large-scale building data.
- Build tools, training, and resources for Title 24 stakeholders, and support development of energy codes and standards such as Title 24 Part 6 and the Washington State Energy Code (WSEC).
- Work with CEC, local governments, IOUs, and CPUC Codes and Standards participants. Support local governments on Reach Code adoption. CASE subject-matter expert for the 2022, 2025, and 2028 Title 24 Part 6 cycles.
- Mentor junior staff. Manage workload and contract budget. Write statements of work.

EnergySoft

2014 to 2019

Energy Analyst, 2015 to 2019. Intern, 2014 to 2015.

- Building energy models for nonresidential projects including Apple Park.
- Life-cycle cost analysis of nonresidential design options in EnergyPro.
- Managed a team of energy consultants.

Industry engagement

- ACEEE Summer Study 2024 paper and talk. 21st Century Compliance: Data-Driven Solutions for Decarbonization and Equity, with Sally Blair and Jill Marver. [Paper PDF](#) · [Proceedings](#)
- CalBEM 2025 Power Talk. Capturing the Value of BEM Data for Policy and Programs.
- CABEC 2024. California Energy Code compliance software framework.
- CABEC 2022. What is new with the 2022 Nonresidential energy code.
- CABEC 2026, upcoming. AI for Energy Consultants. cabec.org/conference2026
- Technical briefing for CEC Commissioner Andrew McAllister and senior staff on the NORESCO Codes and Standards database.

Wattly

Founder. Title 24 BEM and Energy Code compliance software for California, covering performance and prescriptive compliance. Currently awaiting CEC certification for the 2025 Energy Code. Releasing in private beta. wattlysolutions.com
