Summary

Full-stack developer with 12 years of experience as a Title 24 Part 6 subject matter expert, building software tools for energy consultants, utilities, and state agencies. I lead an interdisciplinary team of software developers and subject matter experts to build Virtual Compliance Assistant, a Title 24 Part 6 form completion tool, and I build and maintain a data pipeline and associated schemas used to inform future policy decisions for building energy codes. I am the founder of Wattly, Title 24 BEM and Energy Code compliance software covering performance and prescriptive compliance, currently awaiting CEC certification for the 2025 Energy Code. Seeking software roles where energy-code domain knowledge is useful on the job.

Experience

NORESCO

2019 to present

Senior Energy Analyst, 2024 to present. Energy Analyst III, 2021 to 2024. Energy Analyst II, 2019 to 2021.

- Lead an interdisciplinary team of software developers and subject matter experts to build Virtual Compliance Assistant, a Title 24 Part 6 form completion tool used to demonstrate California Title 24 Part 6 prescriptive compliance. It digitized a process that used to be hand-filled paper forms and fragmented tools.
- Built and maintain a data pipeline and associated schemas used to inform future policy decisions for building energy codes.
- Develop and maintain the XSD ruleset used by public and private California compliance tools.
- Build a secure API for large-scale building-data transfer.
- Work with CEC, local governments, IOUs, and CPUC Codes and Standards. Support Reach Code adoption and development of energy codes and standards such as Title 24 Part 6 and the Washington State Energy Code (WSEC). CASE subject-matter expert for the 2022, 2025, and 2028 cycles.

EnergySoft

2014 to 2019

Energy Analyst, 2015 to 2019. Intern, 2014 to 2015.

- Building energy models for nonresidential projects including Apple Park.
- Nonresidential life-cycle cost analysis in EnergyPro. Managed consultants.

Selected work

- Wattly. Founder. Title 24 BEM and Energy Code compliance software for California, covering performance and prescriptive compliance. Currently awaiting CEC certification for the 2025 Energy Code. Releasing in private beta.
- Virtual Compliance Assistant. Lead at NORESCO. Title 24 Part 6 form completion tool.
- Compliance data. Developer and maintainer, NORESCO. Data pipeline and associated schemas used to inform future policy decisions for building energy codes.

Talks and publications

- CABEC 2026, upcoming. AI for Energy Consultants. cabec.org/conference2026
- CalBEM 2025 Power Talk. Capturing the Value of BEM Data for Policy and Programs.
- ACEEE Summer Study 2024. 21st Century Compliance: Data-Driven Solutions for Decarbonization and Equity, with Sally Blair and Jill Marver.
- CABEC 2024. California Energy Code compliance software framework.
- CABEC 2022. What is new with the 2022 Nonresidential energy code.

Education

- B.S. Computer Science, Colorado State University
- B.S. Energy Management and Design, Sonoma State University
