---

## Summary

Full-stack developer with about a decade building California energy-code software. I lead a team that ships Title 24, Part 6 compliance tooling: web apps, SQL, XSD rulesets, and APIs. On my own I build Wattly, prepared and not publicly released.

Looking for software roles where energy-code domain knowledge is useful on the job.

## Experience

### NORESCO

2019 to present

Senior Energy Analyst, 2024 to present. Energy Analyst III, 2021 to 2024. Energy Analyst II, 2019 to 2021.

- Lead developers on a full-stack web app for Title 24, Part 6 prescriptive compliance.
- Design and maintain a SQL database of public and private California compliance-software data for CASE, CEC, and CPUC staff.
- Develop and maintain the XSD ruleset used by public and private CA compliance tools.
- Build a secure API for large-scale building-data transfer.
- Work with CEC, local governments, IOUs, and CPUC Codes and Standards. Support Reach Codes. CASE SME for the 2022, 2025, and 2028 cycles.

### EnergySoft

2014 to 2019

Energy Analyst, 2015 to 2019. Intern, 2014 to 2015.

- Energy models for projects including Apple Park.
- Nonresidential life-cycle cost analysis in EnergyPro. Managed consultants.

## Selected work

- Wattly. Independent creator. Title 24 BEM and compliance software for California, performance and prescriptive. Prepared, not publicly launched.
- Title 24 prescriptive compliance platform. Lead at NORESCO. Full-stack product for Part 6 prescriptive requirements.
- NRCC-LTS form tool. Personal full-stack experiment with Flask, JavaScript, MySQL, and Azure.
